Find a Dentist on UnitedConcordia.com

Search Options

Find a Dentist allows you to search by county, ZIP code, street address or practice or dentist name right from our home page. You can even narrow your search by dental specialty.

Results Page

The search results show the closest 100 dentists to your starting location. You can sort by name, distance or specialty,* or refine your search.

Online Scheduling

Find and book your appointment online with participating dentists. Simply click on the "Schedule Now" button in the search results.

Compare Dentists

At United Concordia Dental, we want to ensure that members are making informed decisions on their dental health. That's why our **Find a Dentist** tool allows you to see more about each dentist, such as contact information, languages spoken, gender and ages treated. And you can even select up to four dentists to compare side by side, making it easy to choose the right dentist for you.
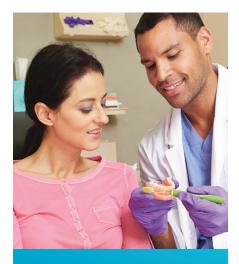

Create a Directory

With **Find a Dentist**, it's easy to find a dentist or specialist near you. In fact, you can download, email or print a directory of the dentists and specialists from your search results.

Map and Directions

Navigating to your dentist is quick and convenient. You can see a map of your dentist's office and the surrounding area, and even request street-to-street directions from any street address.

Except when searching by county. Results for a county search will show all dentists or specialists within the county indicated.

WITH FIND A DENTIST, YOU CAN:

- **SEARCH** by practice, dentist name and more

- **SORT** search results by name, distance or specialty

- **COMPARE** dentists side by side

- **VIEW** office locations on a map and get driving directions

- **CREATE** a dentist directory you can download, email or print

- **SCHEDULE** your appointment online

To use this convenient tool, visit **UnitedConcordia.com** and select **Find a Dentist.**
