

# CONSTRUCTION NOTICE

## La Costa Avenue Street Resurfacing Project

### About the Project

As part of the City of Carlsbad's ongoing program to maintain local roads, crews will resurface La Costa Ave., between El Camino Real and Camino De Los Coches, in addition to the residential streets of Viejo Castilla Way, Navarra Dr. and Pirineos Way.

During work, temporary lane reductions will be in place, however, at least one lane in each direction will remain open at all times. Driveways and side streets may be temporarily impacted when work is directly adjacent. Please plan for extra travel time or use an alternative route.

### What to Expect During Construction

- Construction begins mid-August 2019, and will take place through October 2019
- Work scheduled weekdays, 8:30 a.m. to 3:30 p.m.
- Limited night work at the intersections of La Costa Ave. and Rancho Santa Fe Rd.; notification provided prior to work starting
- Bike lanes will be impacted; bicyclists and motorists will share the road
- “No Parking” signs placed 72-hours prior to work on affected streets
- Watch for flaggers and signage to help you safely navigate through the construction area

*DISCLAIMER: Due to the dynamic nature of construction, please note dates and times are subject to change due to unforeseen operational factors or inclement weather.*
