

La Costa Avenue Street Resurfacing Project

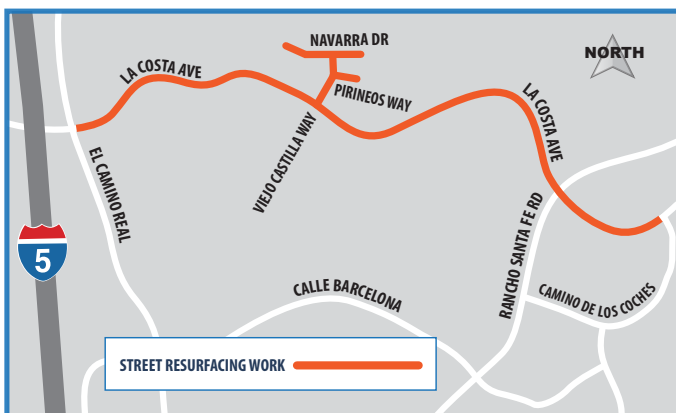

About the Project

As part of the City of Carlsbad's ongoing program to maintain local roads, crews will resurface La Costa Ave., between El Camino Real and Camino De Los Coches, in addition to the residential streets of Viejo Castilla Way, Navarra Dr. and Pirineos Way. During this project, a new bike lane in each direction of La Costa Ave., from El Camino Real to Rancho Santa Fe Rd., will be constructed as well as high-visibility crosswalks on La Costa Ave.

During work, temporary lane reductions will be in place, however, at least one lane in each direction will remain open at all times. Driveways and side streets may be temporarily impacted when work is directly adjacent. Please plan for extra travel time or use an alternative route. What to Expect During Construction

- Construction begins mid-August 2019, and will take place through October 2019
- Work scheduled weekdays, 8:30 a.m. to 3:30 p.m.
- Limited night work at the intersections of La Costa Ave. and Rancho Santa Fe Rd.; notification provided prior to work starting
- Bike lanes will be impacted; bicyclists and motorists will share the road
- "No Parking" signs placed 72-hours prior to work on affected streets
- Watch for flaggers and signage to help you safely navigate through the construction area

Project Benefits

- Continuous new bike lane in each direction of La Costa Ave., from El Camino Real to Rancho Santa Fe Rd.
- New high-visibility crosswalks on La Costa Ave.
- Improving your daily commute by maintaining smooth roads
- Saving money on future street repair costs
