Choose a top-flight hospital for your hospital stay

On the Health Net website, we connect you with information about how well hospitals perform in key areas of care.

We link to easy-to-use findings from The Leapfrog Group, a leading national resource for hospital quality information.

Find rankings in areas including:

- Patient safety practices
- Maternity care outcomes
- Experience levels with specific procedures

You can also access the Leapfrog Hospital Safety Grade, where letter grades (A-F) capture a hospital's overall level of patient safety.
