Appendix A

Carlsbad Police Department AB-481 Military Equipment Inventory (2024)

Technology/Electronics

AVATAR TACTICAL ROBOT		
Description	A remote-controlled belt-driven vehicle designed to handle different	
	terrains while allowing access to its onboard camera so operators can visually clear the areas the robot has traveled.	
Quantity	1	s the Topot has traveled.
Capability	"Quickly and easily der	plovable
Capability		ain including stairs, sand, clothing, grass, etc.
	Two-way audio.	an moraling stane, sama, sistiming, grass, sto.
	Video recording capab	ility."
Life Span	At or exceeded life spa	
Manufacturer's description	"The AVATAR® enhan	ces the capabilities of SWAT and tactical
	response teams by allo	owing them to quickly and safely inspect
	dangerous situations, there is no longer a need to send personnel in	
	before you've had a chance to assess the situation."	
Purpose/ Authorized	Used for search and rescue to safely clear / make safe the	
Usage	interior/exterior of the buildings prior to putting Officers in harm's way.	
	Can be used to communicate and negotiate with suspects.	
Legal / Procedural Rules	PC 633.8 (Eavesdropping Device) and must comply with Carlsbad	
Governing Use	Police Policy 322 (Search and Seizure)	
Costs		\$28,009.61
	Recurring Cost:	
	Maintenance:	ı
		equivalent to new device.
	Year Obtained:	
	How was it budgeted:	

Item Photograph	
Training Needed	Training per PC 633.8 (Eavesdropping Device) provided by the District Attorney's Office. SWAT provides familiarization and scenario-based training to sworn officers.

BOUNCING IMAGE EXPLORER 2.0			
Description	A durable 360-degree camera designed to see into unknown locations.		
Quantity	2		
Capability		ular-shaped camera, designed to be tossed,	
	•	inknown locations to gain visuals on the target	
	location.		
Life Span	N/A		
Manufacturer's description		RING - Avoid the Fatal Funnel, SAFER	
		CLEARING - Tactical Pole Camera, SAFER	
	STAIRWELL/BASEME	NT CLEARING"	
Purpose/ Authorized	Used for search and rescue and to safely clear / make safe the		
Usage	interior/exterior of the buildings during critical incidents. Used to gain		
	valuable lifesaving information and to observe locations prior to putting		
	officers at risk.		
Legal / Procedural Rules	Must comply with Carlsbad Police Policy 322 (Search and Seizure)		
Governing Use			
Costs	Initial Cost:	\$5,853.62	
	Recurring Cost:	n/a	
	Maintenance:	Replaced as damaged. Maintenance cost is	
		equivalent to new device.	
	Year Obtained:		
	How was it budgeted:	Departmental savings from FY17	

Item Photograph	
Training Needed	SWAT provides familiarization training to sworn officers.

L3 Night Vision Monocular		
Description	L3 White Phosphor PVS-14 Harris Gen 3 Autogated Night Vision Monocular	
Quantity	24	
Capability	This monocular is now available with improved white phosphor tube technology for greater target detection and recognition. Low-light and nighttime maneuvers appear more natural in black and white, with added contrast detail in shapes and shadows, providing the operator more visual information for assessment and acquisition. White phosphor offers various shades of intensity between black and white (over black and green), resulting in better contrast and depth perception	
Life Span	N/A	
Manufacturer's description	The Night Vision Device, also known by its military nomenclature AN/PVS-14, is the U.S. military standard for night vision and can be either used as a handheld pocketscope, a right or left eye-mounted monocular or a weapon sight when mounted in conjunction with an infrared laser aimer or other night vision-compatible primary optic.	
Purpose/ Authorized Usage	Used to provide personnel with more visual information in dark to low light environments without giving away the user's location. In a low light environment, when a light is used to visually clear an area it works both ways. The officer can locate and see the suspect, but the suspect can also locate and see the officer. This can be problematic and dangerous when the suspect is in a position of advantage and or is armed. The use of Night Vision Devices allows officers to scan and assess a low light environment without putting themselves at increased risk. The information gained can then be used to make more informed tactical decisions.	
	Issued to individual SWAT personnel to be used in low light environments when the device would help provide more visual information in a low light environment.	

Legal / Procedural Rules Governing Use	None.	
Costs	Initial Cost: \$10,999	
	Recurring Cost:	0
	Maintenance:	N/A
	Year Obtained:	2020
	How was it budgeted: UASI Grant	
Item Photograph		
Training Requirements	Familiarization training for SWAT personnel.	

L3 Night Vision Monocular (Dual Tube)		
Description	L3 AN/PVS-31A BNVD White Phosphor Binocular Night Vision Device (BNVD)	
Quantity	6	
Capability	The AN/PVS-31A – BNVD is a compact, lightweight, Gen III dual-tube goggle with improved white phosphor tube technology for greater target detection and recognition. Low-light and nighttime maneuvers appear more natural in black and white, with added contrast detail in shapes and shadows providing the operator more visual information for assessment and acquisition. White phosphor provides varying shades of intensity between black and white (over black and green), resulting in better contrast and depth perception.	
Life Span	N/A	
Manufacturer's description	The Binocular Night Vision Device (BNVD) has an ergonomic low- profile design and offers superior situational awareness compared to a single tube goggle. The BNVD was designed to increase system resolution, significantly reduce head borne-weight, improve system center of gravity, provide additional operational utility, and improve overall situational awareness as compared to currently fielded dual- tube goggles.	
Purpose/ Authorized Usage	Used to provide personnel with more visual information in dark to low light environments without giving away the user's location. In a low light environment, when a light is used to visually clear an area it works both ways. The officer can locate and see the suspect, but the suspect can also locate and see the officer. This can be problematic and dangerous when the suspect is in a position of advantage and or is armed. The use of Night Vision Devices allows officers to scan and	

	assess a low light environment without putting themselves at increased risk. The information gained can then be used to make more informed tactical decisions. Issued to individual SWAT personnel to be used in low light environments when the device would help provide more visual	
1/5	information in a low light	nt environment.
Legal / Procedural Rules Governing Use	None.	
Costs	Initial Cost:	\$34,835.10
	Recurring Cost:	0
	Maintenance:	N/A
	Year Obtained:	Pending 2022
	How was it budgeted:	
Item Photograph		
Training Requirements	Familiarization training for SWAT personnel.	

	RECON ROBOTICS THROWBOT 2
Description	Robotic camera
Quantity	2
Capability	Used to transmit real-time video in a dangerous and life-threatening environment.
Life Span	N/A
Manufacturer's description	Once deployed, the robot can be directed to move through a structure and transmit real-time video and audio to the OCU II. These reconnaissance features can locate and identify subjects, confirm presence of hostages and reveal the room layout.
Purpose/ Authorized Usage	Used for search and rescue and to safely clear / make safe the interior/exterior of the buildings during critical incidents. Used to gain valuable lifesaving information and to observe locations prior to putting officers at risk.

Legal / Procedural Rules	PC 633.8 (Eavesdropping Device) and must comply with Carlsbad	
Governing Use	Police Policy 322 (Search and Seizure)	
Costs	Initial Cost: \$16,165.00	
	Recurring Cost:	N/A
	Maintenance:	In-house cleaning
	Year Obtained:	2021
	How was it budgeted:	Departmental savings
Item Photograph	AR C.2	
Training Needed	Training per PC 633.8 (Eavesdropping Device) provided by the District Attorney's Office. SWAT provides familiarization and scenario-based training to sworn officers.	

Unmanned Aircraft Systems		
Description	Unmanned Aircraft Systems (UAS/Drones) – CA Gov't Code 7070(c)(1)	
Quantity	12 (Seven different models)	
Capability	Remotely piloted aerial vehicles capable of providing live and recorded video images captured from aerial positions, including images enhanced by dual thermal and optical zoom lenses.	
Life Span	Approximately 5 years, highly dependent on battery replacement	
Manufacturer's description	DJI Matrice 100 (2): The Matrice 100 combines the ease of use of a ready-to-fly quadcopter with the flexibility of a build-it-yourself model. Sporting an "X"-configuration design, the Matrice 100 acts as a platform for the separately available Zenmuse X3 4K camera and gimbal system or can be adapted to support compact third-party cameras (e.g. GoPro). Stackable modular bays simplify adding components such as flight control extensions or a second battery, while the prop arms can be set at a slight angle to increase torque. (\$3866)	
	DJI Matrice 210 (1) : Built for industrial use, the Matrice 210 RTK V2 Professional Quadcopter is meant to go into hazardous conditions to relay vital information to personnel on the ground. With the addition of built-in RTK modules and the inclusion	

of a GNSS mobile station, the 210 RTK V2 is also capable of high-precision mapping. With up to 33 minutes of flight time and a range of up to 5 miles, it can be implemented in a variety of industries and professions. Inspecting infrastructure and getting a clear view of emergencies are just a couple of the jobs the Matrice 210 RTK V2 can perform. (\$9600)

DJI Mavic Enterprise (1): Built upon the Mavic 2 flight platform, the Mavic 2 Enterprise is an advanced, enterprise-level drone solution for demanding applications. Whether you need an eye in the sky for search and rescue, policing and firefighting support, or inspections of vital infrastructure, the Mavic 2 Enterprise is designed to be a compact solution that's easily deployable. To help with these tasks, the Mavic 2 Enterprise features a top extended port for mounting helpful modular accessories. Also equipped with 24GB of onboard storage to capture all the vital data. **(\$2949)**

DJI Mavic Enterprise Advance (1): Utilizing the practical benefits of drone technology, the versatile Mavic 2 Enterprise Advanced Drone is equipped with technology to help first responders enforce the law, find and rescue victims, or fight fires. It can also inspect power equipment, structures, and even the environment, in minutes compared to hours or days. The Mavic 2 Enterprise Advanced can do all this thanks to its compact size, long-lasting battery, ability to fly missions quickly, high-tech dual thermal and visual cameras, and a host of other features. **(\$6900)**

DJI Mavic Zoom (2): The Mavic 2 Zoom with Smart Controller is a professional-quality filmmaking drone that gives you the ability to get closer to the action, thanks to its 24-48mm 2x optical zoom camera with 1/2.3" 12MP sensor. With 4x lossless zoom (including 2x optical zoom), you can capture sensitive subjects from an even greater distance. There's even a single-tap aerial mode called Dolly Zoom that gives a Hitchcockian effect to your footage. **(\$2093)**

Spark (3): The Spark features a 12-megapixel camera stabilized mechanically by a 2-axis gimbal. The Spark also carries an advanced infrared 3D camera that helps the drone detect obstacles in front of it, as well as facilitating hand-gesture control. In addition to a smartphone app with a virtual controller, the Spark also has a physical controller. **(\$499)**

Phantom 4 (2): The Phantom 4 Pro has improved resolution capable of oncontroller live-view streaming, enhanced connectivity, and more. Like the original, the Phantom 4 Pro Version 2 features a 3-axis-stabilized gimbal camera with a 20MP 1" CMOS sensor capable of shooting up to 4K60 fps video and photo bursts at up to 14 fps. It also utilizes the Flight Autonomy system, which includes dual rearvision sensors and infrared sensing for a total of five directions of obstacle sensing and four directions of obstacle avoidance. Instead of Lightbridge, the Phantom 4 Pro Version 2 now uses Ocusync, which enables improved live video stream performance. Other notable enhancements include lighter props and reduced overall

	takeoff weight, wireless integration with DJI Goggles, and bolstered transmission power. (\$1399)		
Purpose/ Authorized Usage	UAS/Drones may be utilized to enhance the Department's mission of protecting lives and property when other means and resources are not available or are less effective. Uses may include but are not limited to search and rescue; suspect apprehension; crime scene documentation; tactical operations; scene security; hazard monitoring, identification and mitigation; response to emergency calls; crisis communications; and legally authorized surveillance.		
Legal / Procedural Rules Governing Use	Any use of a UAS will be in strict accordance with constitutional and privacy rights and Federal Aviation Administration (FAA) regulations. The use of the UAS potentially involves privacy considerations. Absent a warrant or exigent circumstances, operators and observers shall adhere to FAA altitude regulations and shall not intentionally record or transmit images of any location where a person would have a reasonable expectation of privacy (e.g., residence, yard, enclosure).		
	Operators and observers shall take reasonable precautions to avoid inadvertently recording or transmitting images of areas where there is a reasonable expectation of privacy. Reasonable precautions can include, for example, deactivating or turning imaging devices away from such areas or persons during UAS operations. Carlsbad Police Policy 354 (Unmanned Aerial Systems Operations).		
	Í	, , ,	
Costs	Initial Cost: Recurring Cost:	\$35,662 No defined recurring costs. Since the program's inception, eight (8) batteries have been replaced for a total cost of \$1129.00

Steiner DBAL-A3		
Description	Steiner DBAL-A3	
Quantity	24	
Capability		I Visible Green Laser can be used to assist in G's or Gas Mask, there are limitations to their
	illumination technology	st to feature new defocused adjustable IR to enable both midrange and close quarter visible green laser's direct diode allows for cold ow as -20°C.
Life Span	N/A	
Manufacturer's description	IR illuminator and gree Features an adjustable	nercial market, the first eye-safe IR laser pointer, en laser pointer in a single compact unit. e IR illuminator for better illumination at longer switches and high/low power modes.
	for U.S. warfighters. Ar the latest advances in infrared laser and illum and no-light maneuver new defocused adjusta midrange and close qu	model is based on the standard issue DBAL-A3 and just like the restricted models, this unit offers IR and visible laser technology. The dual-beam sinator combination is extremely accurate in low-s. In addition, the DBAL-A ³ is the first to feature able IR illumination technology to enable both larter target acquisition. The visible green laser's cold weather operation as low as -20°C.
Purpose/ Authorized Usage	The dual-beam infrared laser and illuminator is used to identify and highlight objects in low light to dark environments. It allows users to illuminate areas via infrared light without giving away the users' position.	
		VAT personnel to be used in low light e device would help provide more visual ht environment.
Legal / Procedural Rules Governing Use	None.

Less Lethal Equipment and Munitions

Remington 870 Beanbag Shotgun		
Description	12-gauge shotgun used to deploy less lethal munition	
Quantity	15	
Capability	Deploying 12 gauge less lethal bean bag munitions	
Life Span	N/A	
Manufacturer's description	America's bestselling shotgun for over 50 years, the Model 870's dependability is legendary. The receiver is milled from a solid billet of steel for strength and durability, and the twin action bars ensure smooth, reliable non-binding action.	
Purpose/Authorized Usage	This department is committed to reducing the potential for violent confrontations. Kinetic energy projectiles, when used properly, are less likely to result in death or serious physical injury and can be used in an attempt to de-escalate a potentially deadly situation. Circumstances appropriate for deployment include, but are not limited to, situations in which: The suspect is armed with a weapon and the tactical circumstances allow for the safe application of approved munitions. The suspect has made credible threats to harm him/herself or others. The suspect is engaged in riotous behavior or is throwing rocks, bottles or other dangerous projectiles at people and/or officers. There is probable cause to believe that the suspect has already committed a crime of violence and is refusing to comply with lawful

40 MM Launcher - LMT		
Description	40LMTS- 40 mm LMT Tactical Single Launcher	
Quantity	4	
Capability	Deploying 40mm less lethal impact projectiles. Deploying 40mm chemical agent (CS) barricade penetrating (DefTech	
	2262) rounds.	
Life Span	N/A	
Manufacturer's description	40LMTS is a tactical single shot launcher that features an expandable ROGERS Super Stoc and an adjustable Integrated Front Grip (IFG) with light rail. The ambidextrous Lateral Sling Mount (LSM) and QD mounting systems allow both a single and two point sling attachment. The 40LMTS will fire standard 40mm less lethal ammunition, up to 4.8 inches in cartridge length. The Picatinny Rail Mounting System will accept a wide array of enhanced optics/sighting systems.	
Purpose/Authorized Usage	KINETIC ENERGY PROJECTILE GUIDELINES This department is committed to reducing the potential for violent confrontations. Kinetic energy projectiles, when used properly, are less likely to result in death or serious physical injury and can be used in an attempt to de-escalate a potentially deadly situation. Circumstances appropriate for deployment include, but are not limited to, situations in which: The suspect is armed with a weapon and the tactical circumstances allow for the safe application of approved munitions. The suspect has made credible threats to harm him/herself or others. The suspect is engaged in riotous behavior or is throwing rocks, bottles or other dangerous projectiles at people and/or officers. There is probable cause to believe that the suspect has already committed a crime of violence and is refusing to comply with lawful orders.	
	TEAR GAS GUIDELINES	

	Used to deploy chemical agent into a specific location from a distance. Tear gas may be used for crowd control, crowd dispersal or against barricaded suspects based on the circumstances. Only the Watch Commander, Incident Commander or Crisis Response Unit Commander may authorize the delivery and use of tear gas, and only after evaluating all conditions known at the time and determining that such force reasonably appears justified and necessary.	
Legal / Procedural Rules Governing Use	All applicable State, Federal and Local laws governing police use of force. CSI Combined Systems 12 GA SuperSock Bean Bag or Equivalent		
Description	Less-lethal projectiles which, when deployed out of a shotgun, are intended to incapacitate without causing extreme injury or death.	
Quantity	1810	
Capability	Deployed via a 12-gauge shotgun	
Life Span	5-year manufacturer's warranty	
Manufacturer's description	The Model 2581 Super-Sock® is in its deployed state immediately upon exiting the barrel. It does not require a minimum range to "unfold" or "stabilize." The Super-Sock® is an aerodynamic projectile. However, accuracy is relative to the shotgun, barrel length, environmental conditions, and the operator. The Super-Sock® is very accurate. However, effectiveness depends on many variable, such as distance, clothing, stature, and the point where the projectile impacts.	
Purpose/Authorized Usage	This department is committed to reducing the potential for violent confrontations. Kinetic energy projectiles, when used properly, are less likely to result in death or serious physical injury and can be used in an attempt to de-escalate a potentially deadly situation. Circumstances appropriate for deployment include, but are not limited to, situations in which: The suspect is armed with a weapon and the tactical circumstances allow for the safe application of approved munitions. The suspect has made credible threats to harm him/herself or others. The suspect is engaged in riotous behavior or is throwing rocks, bottles or other dangerous projectiles at people and/or officers. Exact Impact 40 MM Standard Range Sponge Round		
Description	Exact Impact 40MM Standard Range Sponge Round	
Quantity	345	
Capability	This intermediate less lethal specialty munition allows for direct impact from a minimum range of 5ft./1.5m out to a maximum effective range of 131ft / 40m.	
Life Span	5 years from date of manufacture	
Manufacturer's description	The eXact iMpact [™] 40 mm Sponge Round is a point-of-aim, point-of-impact direct-fire round. This lightweight, high-speed projectile consisting of a plastic body and sponge nose that is spin stabilized via the incorporated rifling collar and the 40 mm launcher's rifled barrel. The round utilizes smokeless powder as the propellant, and, therefore, have velocities that are extremely consistent. Used for Crowd Control, Patrol, and Tactical Applications.	
Purpose/Authorized Usage	This department is committed to reducing the potential for violent confrontations. Kinetic energy projectiles, when used properly, are less likely to result in death or serious physical injury and can be used in an attempt to de-escalate a potentially deadly situation.	
	Circumstances appropriate for deployment include, but are not limited to, situations in which: The suspect is armed with a weapon and the tactical circumstances allow for the safe application of approved munitions. Tippman APLS Marker		
Description	Tippman FT-12 Marker (Air Powered Launcher System)	
Quantity	10	
Capability	Deploys Pepperball type projectile with chemical agent	
Life Span	15 years	
Manufacturer's description	The FT-12 is a compact marker with an ergonomically-positioned front vertical grip, which is ideal for players of all ages. The marker's patent-pending design makes gaining access to internals significantly easier - simply remove the barrel, unscrew the collar and flip the top. No tools are required.	
Purpose/	KINETIC ENERGY PROJECTILE	
Authorized Usage	This department is committed to reducing the potential for violent confrontations. Kinetic energy projectiles, when used properly, are less likely to result in death or serious physical injury and can be used in an attempt to de-escalate a potentially deadly situation.	
	Circumstances appropriate for deployment include, but are not limited to, situations in which: The suspect is armed with a weapon and the tactical circumstances allow for the safe application of approved munitions. The suspect has made credible threats to harm him/herself or others. The suspect is engaged in riotous behavior or is throwing rocks, bottles or other dangerous projectiles at people and/or officers.	

	There is probable cause to believe that the suspect has already committed a crime of violence and is refusing to comply with lawful orders.		
	TEAR GAS (CS) Tear gas may be used for crowd control, crowd dispersal or against barricaded suspects based on the circumstances. Only the Watch Commander, Incident Commander or Crisis Response Unit Commander may authorize the delivery and use of tear gas, and only after evaluating all conditions known at the time and determining that such force reasonably appears justified and necessary.		
	OLEORESIN CAPSICUM (OC) As with other control devices, oleoresin capsicum (OC) spray and pepper projectiles may be considered for use to bring under control an individual or groups of individuals who are engaging in, or are about to engage in violent behavior. Pepper projectiles and OC spray should not, however, be used against individuals or groups who merely fail to disperse or do not reasonably appear to present a risk to the safety of officers or the public.		
Legal / Procedural Rules Governing Use	All applicable State, Federal and Local laws governing police use of force. Carlsbad Police Policies 208 (Training), 300 (Use of Force), 303 (De-escalation), 308 (Control Devices and Techniques), 313 (Firearms Qualification and Remediation) 471 (First Amendment Assemblies)		
Costs	Initial Cost: \$1,810 Recurring Cost: \$1,051 (SCBA tanks and bottles must be serviced or replaced every 5 years.) Maintenance: \$30 (parts and equipment) Year Obtained: 2020 How was it budgeted: Savings from general operating budget

Patrol Rifle Suppressor		
Description	HX-QD 556K Suppressor	
Quantity	120	
Capability	Lowers sound to sub-140 dB	
Life Span	15+ years	
Manufacturer's description	A short and extremely durable suppressor, the HX-QD 556k – updated with our newly designed flash cap – is built with patented and proven Flow-Through® technology, delivers sub-140 dB and zero flash performance, is full-auto rated, easily passes the USSOCOM Reliability Stress Test, and has no minimum barrel restrictions – it's designed and built for extreme use.	
Purpose/Authorized Usage	A device that greatly reduces sound, recoil, and muzzle rise. Suppressors do not completely remove the need for hearing protection, but they can help a great deal. When you fire a gun, a large volume of hot, high-pressure gas exits the muzzle along with the bullet. This gas shooting down the gun barrel and exiting makes a lot of noise ("muzzle blast"). A suppressor contains some of those gasses for a fraction of a second and allows them to expand and cool more gradually by circulating them around internal baffles. This helps to lower the decibel level. The Occupational Safety & Health Administration (OSHA) has determined that a decibel (dB) level greater than 140 can cause permanent hearing loss. suppressors can lower the dB level below the detrimental 140 dB level. These devices are attached to issued Patrol Rifles.	
Legal / Procedural Rules Governing Use	Because these devices are attached to rifles, all applicable State, Federal and Local laws governing police use of force apply. (See Sig M400 and Smith and Wesson M&P Rifle Legal/Procedural Rules Governing Use for further details)

SIG SLX762-QD SUPPRESSOR		
Description	SIG SLX762-QD	
Quantity	24	
Capability	Lowers sound	
Life Span	15+ years	
Manufacturer's description	The SLX series of rifle suppressors feature the new Clutch-LOK QD mounting system which is easy to use, repeatable, and extremely durable. The internal multi-flow path within the SLX suppressors allows gasses to exhaust at a faster rate than traditional baffle-style suppressors. This results in 70-80% less toxic fumes flowing back through the ejection port into the shooter's face. The SLX series is a performance-based suppressor designed for use with supersonic ammunition and ideal for users focused on flash reduction and lower toxic fumes. The new low-tox SLX suppressors deliver a superior shooting experience, unlike any other suppressor. The internal multi-flow path of the SLX with low resistance exhausts gases at a faster rate than traditional baffles. SLX features 70-80% less PPM than traditional baffle suppressors.	

Purpose/Authorized Usage	A device that greatly reduces sound, recoil, and muzzle rise. Suppressors don't completely remove the need for hearing protection, but they can help a great deal. When you fire a gun, a large volume of hot, high-pressure gas exits the muzzle along with the bullet. This gas shooting down gun barrel and exiting makes a lot of noise ("muzzle blast"). A suppressor contains some of those gasses for a fraction of a second and allows them to expand and cool more gradually by circulating them around internal baffles. This helps to lower the decibel level.		
	The Occupational Safety & Health Administration (OSHA) has determined that a decibel (dB) level greater than 140 can cause permanent hearing loss. suppressors can lower the dB level below the detrimental 140 dB level. These devices are attached to issued SWAT Rifles.		
	Those devices are attached to issued evv/(1 Kines.		
Legal / Procedural Rules Governing Use	Because these devices are attached to rifles, all applicable State, Federal and Local laws governing police use of force apply. (See MCX Rifle Legal/Procedural Rules Governing Use for further details)

Remington 870 Shotgun			
Description	12-gauge shotgun		
Quantity	35		
Capability	Deploying 12-gauge shotgun ammunition and 12 gauge slug ammunition.		
Life Span	N/A		
Manufacturer's description	America's best selling shotgun for over 50 years, the Model 870's dependability is legendary. The receiver is milled from a solid billet of steel for strength and durability, and the twin action bars ensure smooth, reliable non-binding action. Its solid, dependable action makes it America's favorite, and our continual upgrades make it the most advanced, well-rounded family of pump shotguns around. Along with continually evolving designs, this shotgun's superiority is a matter of rugged dependability, great pointing characteristics and versatility. In fact, the Model 870™ has been the standard for slide-action performance for more than 60 years.		
Purpose/Authorized Usage	Shotguns offer superior terminal ballistic characteristics when shooting through intermediate barriers compared to a handgun or rifle. A shotgun is to be displayed only under circumstances known or believed to be dangerous.		
Legal / Procedural Rules Governing Use	All applicable State, Federal and Local laws governing police use of force. Carlsbad Police Policies 208 (Training), 300 (Use of Force), 312 (Firearms), 313 (Firearms Qualification and Remediation).

Description	Remington 700 R LTR (Light Tactical Rifle) Bolt Action Rifle		
Quantity	5		
Capability	Long rang precision shooting		
Life Span	End of life 01/01/2022		
Manufacturer's description	Sniper-grade accuracy meets police-grade tactical toughness with the legendary Remington 700 Police LTR platform, engineered to deliver extended-range precision.		
Purpose/Authorized Usage	The Remington 700 is an accurate rifle for precision shooting. These rifles are equipped with magnified optics and can be utilized to take precision shots at intermediate to long ranges. The .308 caliber bullet it shoots is also larger and heavier than a typical .223 caliber bullet from an AR-15 which means it will penetrate intermediate barriers such as glass with less deflection.		
	The rifle may only be deployed by the CBPD SWAT Sniper Team. CBPD SWAT Sniper Team members may deploy the rifle in any circumstance where the officer can articulate a reasonable expectation that the rifle may be needed. Examples of some general guidelines for deploying the rifle may include, but are not limited to:		
	 a. Situations where the officer reasonably anticipates an armed encounter; b. When an officer faced with a situation that may require the delivery of accurate and effective fire at long range; c. Situations where an officer reasonably expects the need to meet or exceed a suspect's firepower; d. Simunition FX Marking Cartridges or Equivalent		
Description	Simunitions rounds are low-yield cartridges with a hollow, paint-filled "bullet" that allows Officers to engage in practical combat scenarios, both against each other and with designated role players, with a significantly reduced risk of injury.	
Quantity	1000 (approx.)	
Capability	Deployed via designated Simunition firearms or standard firearms equipped with Simunition conversion kits.	
Life Span	5-year shelf life for cartridges	
Manufacturer's description	The FX® marking cartridges, which come in six colors, are at the core of the FX® Training System known as "the world's most realistic closerange combat training system". The patented, reduced-energy, non-lethal cartridges leave a detergent-based, water-soluble color-marking compound. The visible impacts allow accurate assessment of simulated lethality. The cartridges are available in .38 cal. and 9mm and feature tactical accuracy up to 25 feet (7.6 meters). The 5.56mm is tactically accurate with ball cartridges to 100 feet (30 meters). No special ballistic facilities are required. They meet the need for a force-on-force and man-to-man training system that is realistic, effective, inexpensive, adaptable and fully portable.	
Purpose /Authorized	This department is committed to training and development of front line	
Usage	staff. Simunitions allow personnel to train in real-world scenarios with

Def-Tech Maximum Smoke HC, Smoke		
Description	Def-Tech Maximum Smoke HC, Smoke.	
Quantity	26	
Capability	Can be hand thrown, deployed via robot, and munitions pole.	
Life Span	5 years from date of manufacture	

Manufacturer's description	The Military-Style Maximum Smoke Grenade comes from the Defense Technology® #3 smoke grenade. It is a slow burning, high volume, continuous discharge grenade designed for outdoor use in crowd management situations. Emits grey-white smoke only for approximately 1.5 to 2 minutes.	
Purpose/Authorized Usage	To test wind direction prior to tear gas deployment or to aid in the dispersion of chemical agent in an open area environment. To provide concealment during movement or a distraction for officers during critical incidents.	
Legal / Procedural Rules Governing Use	All applicable State, Federal and Local laws governing police use of force. Carlsbad Police Policies 300 (Use of Force), 303 (Deescalation), 308 (Control Devices and Techniques), 471 (First Amendment Assemblies).

Def-Tech Pocket Tactical, CS		
Description	Def-Tech Pocket Tactical CS	
Quantity	27	
Capability	Can be hand thrown, deployed via robot, placed into a Gas Ram, Burn Safe and Munitions Pole	
Life Span	5 years from date of manufacture	
Manufacturer's description	The Pocket Tactical CS Grenade is small, and lightweight. The 0.9 oz. of active agent will burn approximately 20-40 seconds. At 4.75 in. by 1.4 inches in size, it easily fits in most tactical pouches. This is a launchable grenade; however, it is normally used as a signaling or covering device. Though this device is slightly over four inches in length, it produces a smoke cloud so fast it appears to be an enveloping screen produced by a full size tactical grenade.	

Purpose/Authorized Usage	Tear gas may be used for crowd control, crowd dispersal or against		
	barricaded suspects based on the circumstances. Only the Watch		
	Commander, Incident Commander or Crisis Response Unit		
	Commander may authorize the delivery and use of tear gas, and only		
	after evaluating all conditions known at the time and determining that		
	such force reasonably	appears justified and necessary.

Def-Tech Triple Chaser, CS			
Description	Def-Tech Triple Chaser, CS		
Quantity	40		
Capability	Can be hand thrown, deployed via robot, and Munitions Pole		
Life Span	5 years from date of manufacture		
Manufacturer's description	The Triple-Chaser® CS consists of three separate canisters pressed together with separating charges between each. When deployed, the canisters separate and land approximately 20 feet apart allowing increased area coverage in a short period of time. This grenade can be hand thrown or launched from a fired delivery system. The grenade is 6.5 in. by 2.7 in. and holds approximately 3.2 oz. of active agent payload. It has an approximate burn time of 20-30 seconds.		
Purpose/Authorized Usage

First Defense 1.3% MC MK-9 Stream OC Aerosol			
Description	First Defense 1.3% MC MK-9 Stream OC Aerosol		
Quantity	2		
Capability	Hand deployment only		
Life Span	5 years from date of m	anufacture	
Manufacturer's description	The MK-9 features an easy-to-use trigger handle, is intended for use in crowd management and will deliver 14 short bursts of OC at an effective range of 18-20 ft. This 1.3% MC OC aerosol product utilizes a stream delivery method providing a target-specific, strong concentrated stream for greater standoff. Non-flammable / Electronic Discharge Weapon (EDW) safe.		
Purpose/Authorized Usage	As with other control devices, oleoresin capsicum (OC) spray and pepper projectiles may be considered for use to bring under control an individual or groups of individuals who are engaging in or are about to engage in violent behavior. Pepper projectiles and OC spray should not, however, be used against individuals or groups who merely fail to disperse or do not reasonably appear to present a risk to the safety of officers or the public.		
Legal / Procedural Rules Governing Use	All applicable State, Federal and Local laws governing police use of force. Carlsbad Police Policies 300 (Use of Force), 303 (Deescalation), 308 (Control Devices and Techniques), 471 (First Amendment Assemblies)

Flameless Tri-Chamber, CS		
Description	Flameless Tri-Chamber, CS	
Quantity	27	
Capability	Can be hand thrown, deployed via robot, placed into a Gas Ram, Burn Safe and Munitions Pole	
Life Span	5 years from date of manufacture	
Manufacturer's description	The design of the Tri-Chamber Flameless CS Grenade allows the contents to burn within an internal can and disperse the agent safely with reduced risk of fire. The grenade is designed primarily for indoor tactical situations to detect and/or dislodge a barricaded subject. This grenade will deliver approximately .70 oz. of agent during its 20-25 seconds burn time. The Tri-Chamber Flameless Grenade can be used in crowd control as well as tactical deployment situations by Law Enforcement and Corrections but was designed with the barricade situation in mind. Its applications in tactical situations are primarily to detect and/or dislodge barricaded subjects. The purpose of the Tri-Chamber Flameless Grenade is to minimize the risks to all parties through pain compliance, temporary discomfort, and/or incapacitation of potentially violent or dangerous subjects. The Tri-Chamber Flameless Grenade provides the option of delivering a pyrotechnic chemical device indoors, maximizing the chemicals' effectiveness via heat and vaporization, while minimizing or negating the chance of fire to the structure.	
Purpose/Authorized Usage	Can be used in a mobile field force environment or tactical situation. Can be deployed inside a structure with a reduced risk of fire. Tear gas may be used for crowd control, crowd dispersal or against barricaded suspects based on the circumstances. Only the Watch Commander, Incident Commander or Crisis Response Unit Commander may authorize the delivery and use of tear gas, and only after evaluating all conditions known at the time and determining that such force reasonably appears justified and necessary.

Def-Tech Aerosol OC Vapor		
Description	Def-Tech Aerosol OC Vapor	
Quantity	9	
Capability	Can be hand thrown, deployed via robot, placed into a Gas Ram, Burn	
	Safe and Munitions Pole	
Life Span	5 years from date of manufacture	
Manufacturer's description	The Defense Technology® OC Vapor Aerosol Grenade is for law enforcement and corrections use to deliver a high concentration of Oleoresin Capsicum (OC) in a powerful mist. The grenade is designed for indoor use in confined areas and, once deployed, inflames the mucous membranes and exposed skin resulting in an intense burning sensation. The incapacitating effect of the OC Vapor on the subject is dramatic, yet requires minimal decontamination. Removing the subject from the affected area to fresh air will resolve respiratory effects within minutes. The OC Vapor Aerosol Grenade is ideal for cell extractions or barricade situations where the use of pyrotechnic, powder or liquid devices is not practical or desired.	
Purpose/Authorized Usage	Tear gas may be used for crowd control, crowd dispersal or against barricaded suspects based on the circumstances. Only the Watch Commander, Incident Commander or Crisis Response Unit Commander may authorize the delivery and use of tear gas, and only	

	after evaluating all conditions known at the time and determining that		
	such force reasonably appears justified and necessary.

OC Aerosol Grenade 1.3% Fogger, 1 oz. / 6 oz		
Description	OC Aerosol Grenade 1.3% Fogger, 1 oz. / 6 oz	
Quantity	10	
Capability	Can be hand thrown, deployed via robot, placed into a Gas Ram, Burn Safe and Munitions Pole	
Life Span	5 years from date of manufacture	
Manufacturer's description	The 1 oz. / 6 oz. OC Aerosol Grenade will deliver its payload of 1/3% MC% OC in 15-20 seconds. This is an anatomized mist which enhances the pungent 1.3% OC formulation. Ideal for area denial areas like attics, garages, etc. This device has minimum clean up. The canister may also be handheld to direct the spray pattern. This product is designed to provide room clearing ability with minimum clear up requirements.	
Purpose/Authorized Usage	As with other control devices, oleoresin capsicum (OC) spray and pepper projectiles may be considered for use to bring under control an individual or groups of individuals who are engaging in, or are about to engage in violent behavior. Pepper projectiles and OC spray should not, however, be used against individuals or groups who merely fail to disperse or do not reasonably appear to present a risk to the safety of officers or the public.

Spede-Heat CS Gas			
Description	Speed-Heat Continuous Discharge Grenade, CS		
Quantity	49		
Capability	Can be hand thrown, deployed via robot, launched, placed into a Gas Ram, Burn Safe and Munitions Pole		
Life Span	5 years from date of m	anufacture	
Manufacturer's description	The Spede-Heat CS Grenade is a high-volume continuous burn device. It expels its payload in approximately 30-40 seconds. The payload is discharged through four gas ports on top of the canister, three on the side and one on the bottom. This launchable grenade is 6.12 inches by 2.62 inches and holds approximately 81.2g of CS chemical agent.		
Purpose/Authorized Usage

PepperBall	LIVE-X, Mission Munitions, Byrna or Equivalent
Description	Hollow spheres containing Oleoresin Capsicum (commonly known as OC), 2-Chlorobenzylidene Malononitrile (commonly known as CS) and other such irritants that, when exposed, causes minor to moderate irritation to the eyes, mouth, lungs, throat, and skin in order to temporarily incapacitate.
Quantity	6,500
Capability	Deployed via a APLS launcher
Life Span	5-year manufacturer's warranty
Manufacturer's description	Our most powerful proprietary pepper and tear gas blend: OC, CS all in one shot, with quick-acting incapacitating effects, higher dispersion, and higher concentration of chemical irritants than any other round found on the market today, our Byrna Max projectiles are designed for maximum stopping power.
	Physical symptoms of chemical irritants often result in disorientation and agitation, which can lead to a state of fear, anxiety and panic in would-be attackers. Upon impact the projectiles burst, creating a cloud of chemical irritant that rapidly disperses into the air to quickly incapacitate an attacker. Within seconds, the saturation area extends in all directions around the point of impact
Purpose/Authorized Usage	This department is committed to reducing the potential for violent confrontations. Kinetic energy projectiles, when used properly, are less likely to result in death or serious physical injury and can be used in an attempt to de-escalate a potentially deadly situation.
	Circumstances appropriate for deployment include, but are not limited to, situations in which: The suspect is armed with a weapon and the tactical circumstances allow for the safe application of approved munitions. The suspect has made credible threats to harm him/herself or others. The suspect is engaged in riotous behavior or is throwing rocks, bottles or other dangerous projectiles at people and/or officers. There is probable cause to believe that the suspect has already

	committed a crime of violence and is refusing to comply with lawful orders.		
	TEAR GAS (CS) Tear gas may be used for crowd control, crowd dispersal or against barricaded suspects based on the circumstances. Only the Watch Commander, Incident Commander or Crisis Response Unit Commander may authorize the delivery and use of tear gas, and only after evaluating all conditions known at the time and determining that such force reasonably appears justified and necessary.		
	OLEORESIN CAPSICUM (OC) As with other control devices, oleoresin capsicum (OC) spray and pepper projectiles may be considered for use to bring under control an individual or groups of individuals who are engaging in, or are about to engage in violent behavior. Pepper projectiles and OC spray should not, however, be used against individuals or groups who merely fail to disperse or do not reasonably appear to present a risk to the safety of officers or the public.

Defense Technology Low Roll Reloadable Distraction Device Body				
Description	Reloadable low-roll noise flash diversionary device body			
Quantity	72			
Capability	Can be thrown, deploy	ed via robot, munitions pole		
Life Span	5 years			
Manufacturer's description		The Low Roll™ reloadable steel body is the newest version of the original Multi-Port Plus™, reusable, non-bursting canister body.		
Purpose/ Authorized Usage	Coupled with a Distraction Device Reload, the purpose of this Distraction Device is to draw or direct someone's attention to a different object or location during a high-risk tactical operation. The device accomplishes this by producing a loud noise and bright light when deployed. This bright light and loud noise create a physiological and physiological response also intended to create lag time in an individual's reaction. The Distraction Device can be used to arouse or awaken unresponsive individuals during dangerous critical incidents. Devices are deployed at the discretion of the SWAT Commander/Incident Commander or by a trained individual if it is determined exigent circumstance exists.

Distraction Device 12-gram Reload with Safety Clip			
Description	Distraction Device® 12-Gram Reload with Safety Clip		
Quantity	35		
Capability	The 12-Gram Distraction Device® Reload w/ Safety Clip utilizes an M201A1 type fuze that was designed for use with the Distraction Device reloadable steel body. The safety clip is designed to keep the pull-pin against the device body to prevent the pin from protruding and possibly snagging on other objects. The 12-Gram Distraction Device Reload w/ Safety Clip is only to be used when properly inserted and tightened into the Distraction Device body		
Life Span	5 years of date of manufacture		
Manufacturer's description	The Distraction Device® Reload utilizes a standard military-style M201A1type fuze and produces 175 dB of sound output at 5 feet and 6-8 million candelas for 10 milliseconds.		
Purpose/ Authorized Usage	When coupled with a Reloadable low-roll noise flash diversionary device body, the purpose of this Distraction Device is to draw or direct someone's attention to a different object or location during a high-risk tactical operation. The device accomplishes this by producing a loud noise and bright light when deployed. This bright light and loud noise create a physiological and physiological response also intended to create lag time in an individual's reaction. The Distraction Device can be used to arouse or awaken unresponsive individuals during dangerous critical incidents. Devices are deployed at the discretion of the SWAT Commander/Incident Commander or by a trained individual if it is determined exigent circumstance exists.

Vehicles

Lenco Bearcat				
Description	Lenco Bearcat Armored Rescue Vehicle			
Quantity	1			
Capability	The primary function of an armored rescue vehicle is to provide			
	protection against ballistic threats.			
Life Span	N/A			
Manufacturer's description	The Lenco BearCat is the standard tactical armored vehicle for special operations units within the US Law Enforcement community. Since the early 2000s, agencies such as LAPD, LASD SEB, NYPD ESU, Boston PD and hundreds of Federal, State and Local Law Enforcement agencies have made the BearCat G2 part of their standard operating procedure. The G2 has excellent on-road driving characteristics and maneuverability in tight urban settings. The large floor plan seats 10 – 12 fully equipped officers with a long list of tactical features only found on the Lenco BearCat line of armored SWAT vehicles for Police and Government.			
Purpose/ Authorized Usage	The Lenco BearCat will improve the ability to mobilize personnel and equipment to provide tactical support during critical incidents anywhere in the City and County, including but not limited to weapons of mass			
	destruction, chemical, biological, explosive (CBRNE) incidents, active shooter situations, terrorist and fugitive suspects, hostage rescue			

Legal / Procedural Rules Governing Use	situations, barricaded suspect, high-risk warrant service, dignitary protection, and other illegal activities. The BearCat will also greatly increase our ability to protect our critical infrastructure within the city. Carlsbad Police Policies 704 (Vehicle Maintenance), 706 (Vehicle Usage)

Item Photograph	How was it budgeted: Grant funded		
Training Requirements	California class C license. Reoccurring department Emergency Vehicles Operation Course.		

SWAT Tactical Command/Equipment Vehicle			
Description	Ford Ambulance (Conversion)		
Quantity	1		
Capability	The SWAT Command Vehicle provides a forward operating location		
	and equipment transport platform.		
Life Span	Due to mechanical challenges, vehicle needs replacement in a future		
	budget cycle (Previously retired fire ambulance)		
Manufacturer's description	Quality is a priority when lives are on the line. Rely on the dependable,		
	durable Ambulance Chassis, 24-7.		
Purpose/ Authorized	The SWAT command vehicle is dedicated to ensuring the storage and		
Usage	transport of equipment needed to resolve a tactical situation that		
	requires adaptability and changing needs during the progression of the		
	incident. The vehicle is equipped with adequate storage and electrical		
	capabilities and can be used jointly as a "Tactical Command" vehicle for dispatchers and SWAT supervisors.		
Legal / Procedural Rules	Carlsbad Police Policies 704 (Vehicle Maintenance), 706 (Vehicle		
Governing Use	Usage)
