"Veterans Memorial Park" RFQ

Oct. 19, 2023

LT Mustardseed Artist

To Whom It May Concern,

I'm writing to be considered to create site specific works of art for the "Veterans Memorial Park."

I'm a female, Latinx artist and a Veteran of Desert Storm with over 20 years of public art experience.

I feel a special connection to the City of Carlsbad and spent most of my summers here as a child while visiting my grandparents home. My best memories learning to surf at Tamarack beach, beach camping with family and even attending the Army Navy Academy Ball in the late 80's. Today one of my favorite places to visit is the Agua Hedionda Lagoon and Batiquitos Lagoon Wetlands habitat area.

My approach to public art projects is to inspire and create visual connections between vibrant communities. Through my art, I capture visual stories about endless cycles of life and beauty, ancestry and culture, nature and community.

I encourage community involvement when relevant, and create designs with sitespecific themes that connect to the local culture and nature.

I am experienced with public outreach, leading work crews, working with city municipal processes and coordination with engineering and design teams.

Artwork aesthetics, quality finish, long-term durability and completion of projects on time and within budget are paramount to my process.

My years of service in the Navy, experience in Public Art and growing up in Southern California make me uniquely qualified for this project.

Thank you for your consideration.

Sincerely, LT Mustardseed
