Subject: Tuesday's WCF Appeal

Dear Ms. Burkholder,

I am looking forward to Tuesday's City Council meeting where I will have the opportunity to explain why our neighborhood has been challenging the proposed Wireless Communication Facility at Poinsettia Park. We feel the Planning Commission was manipulated by AT&T into believing there are no alternatives to a WCF at Poinsettia Park. As you know, the decision was a split 4-3, telling of considerable doubt. There ARE viable alternatives and even a different technology that was revealed at the Planning Commission meeting as AT&T's (more expensive) contingency plan. It is frustrating to see big corporations putting profit over a community's well being. Please keep an open mind to the options and to the possibility that staff might have missed something. More importantly, with so much at stake, and the level of confusion and discontent with this item, please consider all the facts thoroughly before entering in to a lease agreement with AT&T.

Respectfully,

Nora Jimenez George, MCP
