Subject: Item #6, Carlsbad Blvd - please support Retreat Now

Honorable Mayor and City Council,

Thank you for your leadership on this important coastal adaptation project. As a frequent user of Carlsbad's beaches, I urge you to show leadership on this item and officially record your support of "Retreat Now" as the preferred project alternative.

By prioritizing "Retreat Now," you can direct staff to aggressively pursue current state and federal funding opportunities with the greater vision in mind. Saving the beach is just as important as moving the threatened road, which already floods and will suffer more damage and inundation as sea levels rise. There is no need to wait for more triggers. We need a beach with safe access and towel space, not an inaccessible beach lined with dangerous rock revetments.

A protected bike and pedestrian lane can be put anywhere, but a beach cannot. Preserving coastal resources, and our access to them, is of paramount concern. Meanwhile, the preferred design for the realigned roadway incorporates a "Complete Streets" design, featuring wide bike and pedestrian lanes.

Since staff is not asking for any further City Council action at this time, please follow the example of your Beach Preservation Commission and make a motion to support "Retreat Now" as the preferred concept.

Thank you for your leadership.

Honorable Mayor and City Council,

Please do not consider moving the current roadway and bike infrastructure. So many north county coastal cities have ruined our cycling, walking and jogging along the coast. Consider instead forfeiting the beach with more sand and replenishing the sand from areas off the coast that have gained sand over the years due to the erosion.

Thank you for your leadership.

Subject: Comments on Item #6, S Carlsbad Blvd Adaptation

I frequent Carlsbad and it's beaches. So much so I will shortly close escrow on a property in Lakeshore Gardens and look forward to being a part of the community instead of just a visitor.

I am appreciative of your leadership on this important coastal adaption project.

Since staff is not asking for any further City Council action at this time, please consider a motion to support "Retreat Now" as the preferred concept (as the Beach Preservation Commission did).

Thank you.

Carlsbad City Council,

In order to save the beach at Las Encinas Creek, please support "Retreat Now" as the preferred project alternative and direct staff to seek additional funding with that vision in mind.

Thank you for considering my comments.

Sincerely,

--
