Subject: Agenda Item #10

The recent GMP monitoring report contains an extensive discussion of the 15% open space performance standard. Nowhere is there a table showing exactly what percent of the unconstrained open space in each LFMZ remains open at present and will remain open. Past annual reports have only shown total open space acreage as opposed to unconstrained open acreage. Please require city staff to include an accurate accounting of unconstrained open space in each zone before approving this GMP monitoring report.
