BUILDING VALUATION MULTIPLIERS FOR BUILDING PERMIT FEES

The Building permit and plan check fees are calculated using a **valuation** for construction. This valuation is derived from the 2016 Building Valuation Multipliers published by the San Diego Area Chapter of the International Code Council (Table 1). Use this table to determine the *construction valuation* and use the Building Permit Fee Table to determine the *permit fee* based on the total construction valuation.

Example: Office building 10,000 sq. ft., construction type VB:

Step 1 – Determine the project’s construction valuation using Table 1.

Ex. 10,000 x \$104.78 = \$ 1,047,800.00 = **Construction Valuation**

Step 2 – Determine the project’s **Building Permit Fee**, found on page 22.

Ex. \$1,000,001 and up, \$3,534.00 + \$95.52(\$1.99 x 48 (1000’s)) = \$3,629.52

Step 3 – **Building Plan Check** fee is 70% of the Building Permit Fee.

Ex. Building Plan Check Fee: \$3,629.52 x 70% = \$2,540.66
