Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

You've already ruined the Village, don't ruin Ponto too!

Thank you

Lisa A.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Additionally, the fragile intertidal ecosystem which development is certain to impact would be in direct opposition to the mission of the California coastal commission which states "protecting and enhancing California's coast". Let us also ensure the city council has the interests of the citizens and future visitors in the forefront of their actions by maintaining the quality of life we all hold dear in Carlsbad.

Thank you

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Nick Affre

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

We have had enough of this City Council allowing the further rape of this coastline!

Thank you

Pamela Amrine

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Alicia Armstrong

Dear city council: Please look at our neighboring coastal cities like Encinitas, Solana beach and Del Mar. We are only coastal town without proper coastal parks and open space that is geared for family enjoyment. We can't just keep building hotels and business parks! We have to think of future generations and their need for beautiful open space. Please use this land for parks or trails ( look at harbaugh trails in Solana beach). Your decision will impact all our children and their families!

Thank you

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Save pinto!

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Ashleigh Bonner

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you  
Don Burton

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Carlsbad needs more open meeting places to bring together our community and be able to enjoy the beauty we love so much.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Please keep Ponto Beach and the coastal lands reserved for coastal recreation. For our future generation, and the world we would like to leave them, consider how nature and parks help develop a love for the outdoors and teaches them to respect nature. Thank you.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

Do we really need more tax dollars and traffic here?

Thank you

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Shane Branker

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

I am disappointed and saddened by the residence being built at Ponto.

Thank you

Kimberly Clark

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

The last thing we need is mor residential development taking up the natural land and potentially blocking the beautiful view of Carlsbad. The community would benefit from having a park in that area.

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

In favor of a coastal park.

Thank you

Russell Cullins

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

I have been going to ponto beach with my family since 1993. Please don't develop this land and let nature be as it is.

Thank you

Kayla Cole

The ocean view driving west on La Costa Ave is sadly diminished by the new Hotel construction and even more will be lost if developers build on this precious piece of land. This would be a perfect spot for tourists and residents alike to enjoy the outdoors and the view of our beautiful beach. Lets not ruin what we all fell in love with in our special community.

Thank you

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Please consider the value of a coastal open space such as this and what it will do to bring high quality tourism and recreation to the area. While residential and retail construction benefit the developers, the long term value of an exceptional open space will bring enormous benefit to the marketing of Carlsbad and the surrounding area.

Thank you

**Subject:** Develop Ponto Right - Support Letter

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Important now and for our children and grandchildren to reserve this Ponto land for a park! NO to houses or condos!

Thank you

Annie chaffin

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

With all of the environmental despair, this is clearly not a step in the right direction.

Thank you

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

No hotel on Ponto's Coast!!!!

Thank you

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

As someone who grew up in Carlsbad and plans to move back eventually, I saw all the open space around Aviara and Poinsettia be turned into homes during my childhood. I want the city to protect open space for future generations so tomorrow's children have places to escape the housing tracts and shopping malls.

Thank you

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

I love ponto beach and have been going there since I was a kid. The wide open sand, fun breach break, fire pits and beautiful sunsets. To have an official park there would be wonderful, we need a park in that area since developers have ruined much of the coastline.

Thank you

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

**Subject:** Develop Ponto Right - Support Letter

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you  
Tate Dubilier

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you  
Becky Dustin

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

As a resident of Carlsbad for over 20 years I appreciate the beauty of our coastal community daily. I also see the desperate need for a park at Ponto Beach for all to enjoy freely, like the fantastic parks at Moonlight Beach in Encinitas and Fletcher Cove in Solana Beach that brings so much joy to all.

Thank you

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

I like to fish, I like to bike, I like to watch the birds and the quiet of the water - I can do all of this now without lots of traffic, noise and with a view. I didn't buy my home in Carlsbad because I felt there was a lack of development at Ponto and truly appreciate there is some place where open space and all it offers is preserved.

Thank you

This beautiful area of coastline has a very special place in the hearts of many Carlsbad locals who already feel like this sweet seaside town is changing in too many ways, way too fast. We have to hold onto what makes this area beautiful and unique to pass down our love and appreciation for the space to our children.

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Naomi Esserman

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Adam Fierer

4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.

I am a father of 2 children and very concerned about the traffic and safety in this area. It is already dangerous enough with Chandlers and the Hotel on Ponto Rd. Developing high density condos in this area would be devastating to the public safety. Please listen to you Carlsbad constituents and put a park in this area. Thank YOU!

Thank you

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Brenda Gomez

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Our coast cannot sustain more residential developments. This is also a resiliency issue if Carlsbad allows investments in developments that are vulnerable to the impacts of climate change and other weather events, which will ultimately require additional resources when hazardous events occur.

Thank you

Stephen Gunther

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

I used to live in Florida please don't make their mistakes their coast line is all condos and hotels very sad

Thank you

Tim Gagner

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

I believe a park would be more ENRICHING and BENEFICIAL to the community and it's visitors. Most importantly, the ecosystem between the Batiquitos Lagoon and Ponto Beach is already fragile as it is, there does NOT need to be waterfront housing there - the cliff at South Ponto is completely destroyed now for million dollar housing.

4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.

Carlsbad is becoming too crowded at the coast and what attracts so many world visitors will disappear with overdevelopment. In time it will decrease property values, rather than enhance them. Use Malibu as an example. There is no impression of it being overcrowded and so it remains a pristine and highly desirable beach community.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

Thank you  
Cindy Goldstein

7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

I went to UC Berkeley, drawn from NJ by California's majestic beauty. Places like Ponto need to remain wild and open to the public and NOT owned by private hands. Many of my closest friends are born of the sea and salt of southern CA - I write in support of this for them and their kids.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

Thank you

This is the Hwy 101 entrance to our beautiful city from the coastal south. It deserves beautification and a well thought out plan for use by the thousands of residents that live here in Southwest Carlsbad. We have no park within walking distance of our homes. Thousands of kids live here and they deserve a local city park as nice as the many others that have been created for virtually all other Carlsbad residential neighborhoods.

More housing = more people, more traffic, more emissions, more resource requirements, and less peace for all in our community. Our roads, schools, parking lots, and environment are overloaded and need easing up, not additional strain. A park would benefit south Carlsbad on every level, except economic. But city planning should focus on the welfare of its citizens, not on the almighty dollar.

Thank you

This piece of property is a gem and should be valued for what it is... the last open space on the coast in this area. As a 30 year resident of coastal S Carlsbad I have endured the lack of parks in this area but thankfully have enjoyed the open space— be it undeveloped— in my quadrant I'd this city. This spectacular piece of land should be preserved as open space, parkland and improved beach access

Thank you

Marlene Hanson

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Developing a park in this open space is much needed. My wife and I have raised three children in this area, and there are no parks within walking distance. Kids need a place in the neighborhood to walk to play baseball, basketball, football, etc.. While we are close to the ocean, not every child is interested in surfing, boogie boarding, or hanging out at the beach. The park would be an excellent resource for the residents in South Carlsbad and will be an asset to the city.

Thank you

Joe Hayes

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Serina Hughes

**Subject:** Develop Ponto Right - Support Letter

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Tom Hollerbach

We want a coastal park! It isn't fair that every other part of Carlsbad is served by a beautiful city park and yet we have nothing! Tens of thousands of residents here in coastal South Western Carlsbad deserve the same city beautification as the rest of the city. Our taxes are just as real as every other Carlsbad resident. We want a park in Ponto!

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Do not change the Planning code to allow development on this land. I am a Carlsbad resident since 1998, and I have an ownership interest in property in Downtown Carlsbad since 1980's. I moved to Carlsbad for the casual lifestyle as a small village. Please help preserve our little openspace.

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Annika Johnson

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

We need to seek balance in South Carlsbad when it comes to land-use. Please set this area aside as a park for the community to enjoy.

Thank you

Catherine Jain

One of the nice things about Ponto beach is the open land and that there isn't a large building blocking the beach. Also, the way it is now, there is parking that is great when it is busy, but if something is built, then the parking will go away and there really isn't a lot of parkign available.

Thank you

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

I understand that we have a housing crisis, county wide- but this will not provide any solution to that issue. Rather it will simply make disparities more severe- with those with the funds having access to the beach...and the majority that will be closed out. Please consider preserving our natural space.

Thank you

4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

One of the reasons that this lovely community continues to attract residents and tourists is the beauty of our natural surroundings, including coastline , parks and open spaces. Residential development is highly desired.. but INLAND, please! Protect our Coastal open spaces, for our good, and our visitors, for now AND the future. Once we squander it, it cannot easily be reclaimed...

Thank you

5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

This is our home, this has been a huge aspect of what has made Carlsbad such an amazing city for so long. Condos can be put up anywhere. Humans keep developing land and ruining the natural beauty of the coast. Please don't take this away from us. Wild life > money

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Public parks and beach access in Carlsbad should be a priority since available land near the beach is a finite resource that will be lost forever as urban and suburban growth density increases and open space is decreased over time. High-density housing should be located inland near the freeways or blended and hidden into steep hillsides with good views of the oceans and canyons.

Thank you

7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry. I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

This is a beautiful piece of land that is a true rarity on our California coast. Keep it natural for our future generations to enjoy, and not for another corporation to push out the locals just to make money.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Our town is beautiful BECAUSE of the land that is open and kept in its natural form. We do not need more residential areas, if anything we need to keep our lookouts and open aired spaces sacred for the people who live here and have fallen in love with it.

2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Beautiful slices of undeveloped nature are what make this area worth living in - a park is the closest we can get to that with urban development. Serve the community with a beautiful gathering space to foster wellbeing and good citizenship for generations to come!

Thank you

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

I urge the City to prioritize a park at Ponto to... - support community & bring equity through creating more common spaces - enable important steps toward coastal stewardship, a priority of deep concern considering looming threats of sea-level rise and coastal erosion - prioritize community consent in this review process and give these comments due consideration

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Making up this park deficit besides being legally required will be a wonderful amenity for both residents and visitors. I urge all of you to support this much needed Coastal Park. Thank you.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Anna Marie Lopez

2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

This is the last little stretch of land by the water...housing can be anywhere. It would be a shame to ruin the beautiful stretch of land ... We need to preserve the beauty of California in the ocean instead of building everywhere.

Thank you

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

We have plenty of beach front hotels already and need more space for people to enjoy the beach front areas.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

There are so few accessible coastal open space areas in Southern California -- please keep this one.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

We do not need more building we need park space

Thank you

Carol Matthews

5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Julia Martin

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

We must consider our children, and their children future. What if the great wisdom to create and preserve land under our national parks never happened, would we be better off. This applies to Carlsbad now. Its not just about revenue, we must think bigger, bolder and be brave.

Thank you

The Ponto corridor is an iconic stretch of land and I am in favor of keeping as much as as possible open for all people. The state campground and beaches attract so many people, are open to the public yet still generate a vast amount of revenue for the city. Please note what Solana Beach and Del Mar have fought for to maintain a small city beach vibe. Contrast that with what Oceanside did near the pier. The city sold out to developers and will never get that back.

**Subject:** Develop Ponto Right - Support Letter

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Taylor martin

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

Leave the land as it is... Please preserve it! It is absolutely beautiful the way it is. And just as we have beautiful National Parks, we must do the same for our costal waters / beaches.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

What make Carlsbad different than any other so called "beach town" is that we actually have some rustic coastal beach drive left. We still see sky from our Village. Lets keep it that way.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Coastal area is so limited. We need to keep as much as we can for our citizens. Further, what will differentiate us from other beach cities is to keep the Coast natural and not build hotels, restaurants, condos or mega mansions.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

I request that we preserve coastal open spaces by developing Ponto as a park to serve residents and visitors for South Carlsbad.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Devon Olinger

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Ponto should remain as natural and public accommodating to the residents of South Carlsbad to counteract the State of CA monopoly of beach access and user space for beach and ocean areas of the southern end of Carlsbad. There needs to be adequate park space devised to properly balance access the SW beach area of Ponto and Poinsettia Sections. The current configuration is not fair to South Carlsbad residents and taxpayers who deserve a seaside park and or better beach access.

Thank you

I don't want more dining though. With the new resort going in and Ralphs right there I think that suffices.

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

**Subject:** Develop Ponto Right - Support Letter

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Brenda Peterson

Where Leucadia meets Carlsbad on La Costa is already becoming a crowded area and with the new hotel under construction it is only going to get worse. This space would make a perfect place for a park, is walk-able from Ponto and the near by communities. Please designate the land as a park to preserve the beauty and character of the 101 corridor and the quality of life for those that live in the 101 corridor.

4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Ponto FREE parking lot could be greatly improved to go towards the coast and have cement barriers with decorative dolphins or other sea life (like other beaches, for example, Zuma beach north of LA). It would also be great to extend/create a boardwalk for runners/walkers to have a safer route than on PCH. We NEED more parks - a little playground for kids or exercise area would be fun.

Thank you

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

The infrastructure is not in place for more development. The new hotel at La Costa and Carlsbad Blvd. is already causing issues; further development will only worsen the problem, plus remove permanently areas of open space that help make Carlsbad livable and appealing. Don't ruin it.

Thank you

I have lived in Carlsbad for the last 30 years and it breaks my heart to see all the open spaces disappearing. Please use this last open area to make a park. So much better than more expensive housing that my kids will never be able to afford to live in.

Thank you

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Please take the necessary steps to ensure that the city will honor the citizens rights to have a coastal park space dedicated to the Southwest portion of the city. Ponto is the space that makes most sense. The State camping Park at So. Carlsbad does not qualify- there is sufficient and adequate space at Ponto for the City to claim for public park use. Thank you. Hugh and Mary Anne Penton

Thank you

**Subject:** Develop Ponto Right - Support Letter

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Putting residential development at Ponto would take away of the calm and beauty that currently surrounds it. Don't take that away to make the area busier than it already gets, especially in the summer time.

Thank you

Ellanya Percy

Quit destroying and building on what little preserved space the city and county has. This area is an amazing refuge for all animals and should NOT BE DISTURBED.

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Mary S. Raymond

**Subject:** Develop Ponto Right - Support Letter

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you  
Holly Resh

While I live just across the lagoon in South Oceanside, I grew up in Carlsbad running all up and down its coastline. I know that towns need to progress and change, but as of late the changes have not been for the overall betterment of the community. I feel that the dramatic loss of open space in Carlsbad has vastly changed the charm of the town I call home. Let's value the little bit of free space we have and utilize in a better way than space for more buildings.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Marco Ramirezlazos

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

The beauty of ponto and that last remaining stretch of empty coastal land in Carlsbad would be ruined if developed, but preserved and cherished by all if maintained as a park. Please help the community you are elected to serve and build a park, not apartments for the wealthy.

Thank you

I live in the north Leucadia area and feel strongly that the City of Carlsbad should preserve this property for the public. The "hotel" monstrosity being constructed at La Costa/101 is enough "improvement" for this area.

4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

We do not need condos or development, we need open space for the citizens of Carlsbad to enjoy.

Thank you  
Jennifer Reimers

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Please let's not ruin the well planned community of Carlsbad like Huntington Beach and others have done after years of "getting it right"! There is a reason Carlsbad has made the lists of Best Places to Visit and Live! Let's keep it that way.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Please stop developing for profit in our coastal city. Open spaces are essential to our community well being.

Thank you

Kelly Rocke

Del Mar, Solana Beach, Encinitas & LaJolla have coastal parks (Powerhouse, Fletcher Cove, Moonlight, LaJolla Shores) which positively impact the community, increase existing property values due to walkability & beach access. Make Carlsbad as desirable of a beach community by adding open space near the beach for all to enjoy instead of more homes/apts/shopping that will increase traffic congestion & add nothing to current home values

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Scott Seiden

Parks make life better! Please stop chasing greed and do what's truly best for the local community. Less mindless building and more mindful choices that will have better lasting benefits on our health and wellness.

5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Janis Smith

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

This property was intended for public use. It should remain available for public use and not developed for the exclusive benefit of developers, corrupt politicians and the people wealthy enough to purchase condos or homes there if they are allowed to be constructed. Residential or commercial development of this parcel will also lead to gridlock similar to what has occurred in the area around El Camino Real and Tamarack Ave. Will the Carlsbad City Council ever learn?

Thank you

Dennis F. Shanahan

Why do you want to build on what little coast we have. Oceanside is completely different and ruined because the unnecessary building of housing and hotels. You're ruining California slowly and surely by wanting to build more. Born and raised in CA, San Diego county.. this is truly sad that it's changed so much over the years to please the eye of tourists.

5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

*April Drinkward  
See "Ds"*

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

**Subject:** Develop Ponto Right - Support Letter

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you  
Grace

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

John Stein

5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Debra Schiff

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

We need more parks, not apartment-like, towering condos on the coast of Carlsbad. Let's development our coastland to serve ALL residents.

Thank you

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

We need to preserve these areas for residents and visitors/campers that come to Carlsbad from around the country and spend money in our city. We need more open space in Carlsbad. This is also the gateway to Carlsbad. Let's not have a condo development that is too dense and tall for the area. This is our last chance to keep Carlsbad beautiful for residents and tourists.

Thank you

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Please exclude / "pull out" three properties, "Ponto Park", Encina Power Plant, and "Strawberry Fields" from the current draft LCP for special consideration. Our generation, as temporary keepers of Carlsbad, could hardly create a greater legacy for future generations than to preserve these properties for the benefit and enjoyment of the people. These properties deserve special consideration. We have a golden opportunity that we must not squander.

Thank you

5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Please hear our pleas.

Thank you

Barbara Tronowsky

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.

This is to be a legacy PARK opportunity and vital to the well being of citizens, local habitat and future generations. It will also protect the park from undue run-off by paving over more of paradise. Please protect open space at the coast. We don't need another HOTEL.

Thank you

**Subject:** Develop Ponto Right - Support Letter

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

I've lived in Carlsbad for over 10 yrs and now live in Encinitas (walking distance to Ponto) and I don't understand why we would ever do anything to jeopardize the little amount of open space we currently have. This is what makes N. County so special.

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

**Subject:** Develop Ponto Right - Support Letter

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

Thank you  
Julian Uribarre

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

**Subject:** Develop Ponto Right - Support Letter

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Frances Walters

**Subject:** Develop Ponto Right - Support Letter

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Stop ruining what little land there is in South Carlsbad. We must put our environment above development and financial profits and greed.

Thank you

Heather Ward

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

I bike this stretch of highway every weekend and have grown up in Leucadia. I would absolutely love a park south of Ponto and would use it all the time. I am not against development but I am against major changes to the charm of our little beach towns. A park would be used by everyone and is something the whole community wants.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

We don't need anymore development!! All of our land is being taken away and being built on. I'm so sick of seeing our planet get destroyed by careless people. Condos, resorts, and retail everywhere you look, we don't need more! We won't be a paradise anymore if the town keeps destroying our paradise

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

As a long time resident of Carlsbad, and a resident on Avenida Encinas I do NOT want to see this happen. It is a travesty for this area to be even considered for condos. Ponto in its natural environment is what makes Carlsbad truly special.

Thank you

Ponto is our family beach. We will hopefully continue to enjoy it with our grandkids. A coastal park is a wonderful idea and the best way to preserve the land. Let the visitors stay at our many resorts we already have in Carlsbad and Ponto park will be somewhere they will love to come. Like the awesome park in La Jolla Cove area of their beach. Let the community gather and enjoy Ponto.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Open Space is much needed for the quality of human life.

Thank you  
Campbell Wallace

WE NEED MORE PARKS!!! they're better for the environment and the community of Carlsbad. it's devastating seeing so many buildings go up in what used to be natural land. i 100% believe that a park, not buildings, will more effectively bring the community of Carlsbad closer together.

Thank you

Carlsbad does not need more homes, a park west of the 5, preserving rare open space makes the most sense.

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Jason Zinn

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Kim

**Subject:** Develop Ponto Right - Support Letter

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry. I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

**Subject:** Develop Ponto Right - Support Letter

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

I am firmly against residential developments being built at Ponto. I, as well as many others would like to preserve what we have left. By adding more developments it takes away Carlsbad's raw beauty & nature that it offers to everyone. I fully support the City to build a citizen based park

Thank you

Jordan

There is so much diversity in ponto it would be absolutely devastating to see this beautiful piece of land be let go to developments. Developments are everywhere but this is a unique piece of land that can't be restored after developments.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

emma

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

Thank you

This is getting out of hand! I am shocked that North Country is not protecting its coastline hard enough to stop residential development. Leave our coast-line alone! We don't need any more people moving here and creating a more crowded and congested space. Please leave what little we have left of nature in this area and stop being so money hungry and thinking about how you can make the city bigger and better to drive in more business.

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you

Laura

Accordingly, I am requesting and making my position known that:

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry. I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Don't develop coastal land this leads to harmful runoff and other types of disturbances and pollution to this environment

Thank you

Dear Mayor Hall, Carlsbad City Council, and California Coastal Commission:

I am informed that

1. Carlsbad must consider on Planning Area F at Ponto the need for a public park at Ponto as part of the Draft Local Coastal Program Amendment.
2. There is no public park at Ponto even though City Park Standards requires a minimum of 6.5 acres of parkland for Ponto.
3. There is a current 6.6 acre park deficit in Coastal Southwest quadrant of Carlsbad, (south of Palomar Airport Road and west of El Camino Real).
4. There are no Coastal Parks in all of South Carlsbad. 64,000 South Carlsbad citizens have no Coastal Park.
5. Ponto is at the center of a larger 6-mile stretch of coastline in that has no Coastal Parks.
6. Ponto has a city documented 30 acre open-space standard deficit that a Coastal Park would help resolves.
7. And most importantly, I am informed that the City is currently ignoring these issues and in the Draft Local Coastal Program Amendment is proposing to eliminate the last opportunity to create a much needed Coastal Park at Ponto

Accordingly, I am requesting and making my position known that:

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you  
Adrian

Accordingly, I am requesting and making my position known that:

I want the Draft Local Coastal Program Amendment to provide for a Coastal Park at Ponto.

I want the City to provide a true Citizen-based Park Planning process for Ponto.

I want the City of Carlsbad to budget money in their capital improvement program to purchase Planning Area F and build a park at Ponto to serve residents and visitors alike.

I want to preserve what little Coastal Open Space Carlsbad has remaining for future generations and our visitor industry.

I am not in favor of future residential development at Ponto, but think this last small amount of vacant Coastal land should be reserved for Coastal Recreation.

Thank you
