Property Owner Signature/Date

The Hazardous Waste and Substances Sites List (Cortese List) is used by the State, local agencies and developers to comply with the California Environmental Quality Act requirements in providing information about the location of hazardous materials release sites.

Per the California Environmental Protection Agency's website, "While Government Code Section 65962.5 [referred to as the Cortese List] makes reference to the preparation of a "list," many changes have occurred related to web-based information access since [the amended statute's effective date in] 1992 and this information is now largely available on the Internet sites of the responsible organizations. Those requesting a copy of the Cortese "list" are now referred directly to the appropriate information resources contained on the Internet web sites of the boards or departments that are referenced in the statute."

Below is a list of agencies that maintain information regarding hazardous waste and substances sites.
