

CARLSBAD SMALL BUSINESS **Cybersecurity-awareness program**

Increase your business's cyber-awareness * with a no-cost risk assessment and training for your employees.**

The City of Carlsbad has partnered with the San Diego Cyber Center of Excellence to provide the following benefits at no cost.

- Receive an online briefing of cyber threats facing local businesses from the FBI's San Diego Cyber Task Force.
- Understand your business's current online exposure and risk assessment via a report from RiskRecon, a MasterCard company.
- Access training resources to help your employees become more cyber-aware, using ESET North America's proprietary platform.

A more cyber-aware community is a more resilient community.
Sign up for the program launch and FBI briefing today!

 **Tuesday, May 18, 10 -11:30 a.m.**

 Reserve your **virtual seat** today!

*Creating better cyber-awareness for businesses is not guaranteed to prevent a business from cyberattacks or data breaches. This program is meant to be an educational benefit.

**This program is for Carlsbad small businesses, defined as currently operating in the City of Carlsbad and having fewer than 100 employees. Any business may participate in the FBI briefing webinar, and businesses will be asked to sign up for the remaining benefits at that time.
