## Educational Background

Bachelor of Arts, Education - Arizona State University  
Palomar College  
Vista High School

## Profession and Personal

Former Elementary School Teacher  
Married to Paul Nygaard (53 years)  
Moved to our present home in 1976  
Three grown children. Alex, Ben and Vanessa  
We have seven grand children

Please explain why you wish to be appointed to City Council  
(attach a separate sheet if needed)

I have recently retired from Tri City Health Care District Board of Directors. I could quickly get up to speed on the issues facing the Board. I love Carlsbad and am very proud of the amazing City that we have created together. It is well run and financially sound. It did not just happen.

It has been many years since we passed the Growth Management Plan in 1986. I think it is time we take a look at how well it is working and if it needs to be adjusted to meet the needs of our current community. Clearly the state is taking over more and more control of local cities. We need to protect what we have here and adjust our future to protect our community. I helped write the open space plan and believe it is a critical element of community planning.

Are you related to, employed by, or affiliated in any way with anyone on the City Council or City of Carlsbad staff members? If yes, please list member name(s).

No

What would you like to accomplish as a council person if appointed?

I am best known for helping people collaborate and come to consensus. When I was elected to the hospital board, the board was not well respected by the community. There was a lot of turmoil and disrespect for each other. As a board member, I worked very hard to bring that group together. While it is still very difficult to make a community hospital work I think the current board now is working together and I have been part of that progress. I listen to the concerns expressed before coming to conclusions. I will bring these same skills to the council. I enjoy working with people to find collaborative solutions. It is the board's responsibility to work together to find the best solution for the whole community.

**Please give examples of using collaboration to become successful.**

A few examples of successful collaboration on projects:

1. Coaster Service - As a city council member, I was an early proponent of creating the Coaster and was a negotiator and key vote to make the project happen.
2. Legoland - I was part of the team that brought Legoland to Carlsbad. I worked to assure positive community impact.
3. Affordable Housing - Faced with community concerns and state regulations, I worked with the council and involved interests to develop a plan with support that was acceptable to the community. This became an example of doing affordable housing in the right way.
4. COSTCO - Many people in the community were concerned about bringing this big box store to Carlsbad with it's impact on local roads. I was part of the collaboration team on the city council that developed an acceptable solution to the traffic and other planning issues which created a successful revenue generating project for our city.
5. La Posada - I collaborated with the faith community to provide farm workers with housing. While I was on the council, we developed a loan equity program to assure the program's success.
6. The Carlsbad Learning Center - This continuing successful project faced some location and financial obstacles which I helped overcome. One solution I focused with others on was bringing the Head Start program into this project.

**What are the most pressing issues facing our community and how do you plan to address them?**

1. Growth - I support an examination of the current Growth Management Plan. Many things have changed during the last 25 years and it is time to apply today's issues to the plan.
2. Homelessness - While not completely a local issue, the council needs to be involved in proposed state, federal and solutions from the nonprofit community.
3. Local Control - It is important for the council to maintain as much local control as possible. An update of the Growth Management Plan is part of the efforts to put the city in front and ahead of state and federal plans.
4. Design and Planning - The council should consider looking at the design criteria for new construction. The big boxes in the Village are not attractive and are too large for our Village.
5. SDG&E Power Plant project - I support a mixed use development of the former power plant site. I want to make sure that the whole community benefits from the development of this precious coastal resource.

**Additional information or comments**

I have been involved almost my entire adult life in the Carlsbad community. I grew up in the area and my husband and family moved to my present home in 1976. At the time, Carlsbad was a small community without a major plan for the future. From School Board to City Council to the Hospital Board, I have played a part in the planning and development of this successful community. I have the time, interest and knowledge to spend the next year helping the council make some key decisions. I know this community and I want to see it continue to flourish. I've listed examples of my past collaboration and leadership. I can bring these skills to the current council to assist in decision making.
