Dear City School Committee Members,

Thank you for the continued support of masks in our public schools. Opening the schools this year has been challenging but we are thrilled CUSD was able to return kids to campus. Masks have played a vital role in keeping the schools open and keeping our children (and the community at-large safe).

I would like to thank all public officials for their support of masks. There are small pockets of our community that would like you to think that masks do not work or asking children to wear masks somehow takes away their rights as parents. But as you know, COVID-19 is a communicable disease so we are all in this together. Masks save lives and we appreciate you standing up for the larger community. As public officials, you have had insults, threats and slurs thrown your way. You have stood strong. Thank you for your continued work in keeping the people of Carlsbad safer from Covid.

Jason Rosenberg
