This is what I found from the Agenda Packet.

The maps that exclude Ponto from D4 and move it to D3 are:

84695
84682
84698
89058
49345
49365
79064
94249
96786
NDC105

The maps that keep Ponto in D4 are:

88418
69103
96876
97192
NDC101
NDC101b
NDC102
d98859
78343
d96786b

Thanks
Arnie Cohen

Shannon,

I will look over the maps in the agenda packet this evening and send you the map numbers that are in each of the groups I am referring to.

Thanks
Arnie

Hello,

From a demographer standpoint, it would be helpful to know if there are any particular maps, from the group identified by Commissioner members last meeting, that are of concern. Are there any particular maps from that group that meet that might work to address concerns about the Pronto community? Particular map numbers are always helpful.

Thank you,

Shannon Kelly

Good Afternoon,

This is to confirm that we are in receipt of your email. This will be forwarded to the demographer and provided to the commission for consideration at their next meeting.

Thank you,

Subject: Differentiating the horizontal maps

Good afternoon. I would like to share an observation about what I see

as the two groups of maps that include 4 coastal districts.

One grouping has only a narrow strip of D4 between El Camino Real and the coast. This segment has virtually no population. The D4 Council member would have very few constituents that are close to the beach.

The other grouping is similar to our current map and extends north at the coast to include the Ponto communities. This provides for a significant population in D4 that is close to the beach.

There are two reasons to review this factor in your deliberations. First, is the obvious benefit to the Council member when they have coastal residents in their district. Second, there are a significant number of Ponto area residents and they voted for the D4 Council member in 2020. If they are now moved to D3 they will get to vote again this year for the D3 Council member. In light of some important and contentious issues in that part of the coast, please consider whether that shift is appropriate.

Thank you

Arnie Cohen
